TODAY & TOMORROW

RUSH — TIME DATED

(Newsbriefs continued)

A workshop in "Family Life Education for Teachers and Parents with Students with Physical Disabilities" will be held Sunday to Wednesday, April 12 to 15, at the Civic Center Holiday Inn.

The workshop is meant primarily for special education teachers who wish to incorporate family life education into their teaching, and will focus on sensory, physical and developmental disabilities; issues of sex and mental retardation will not be addressed in great depth.

Sponsored by the Sex and Disability Unit of the Human Sexuality Program, the workshop is made possible by a grant from the Bureau of Education for the Handicapped, DHHS. For further information contact Carla Thornton, director, Family Life Education Training Project, x1066.

UC's Business Travel Accidental Death and Dismemberment Insurance Coverage has been expanded. Under the new rules any faculty or staff employee traveling on official university or laboratory business, or engaged in hazardous work, is automatically covered for $100,000 of accidental death and dismemberment insurance, without charge. Employees are not covered for normal commute to and from work.

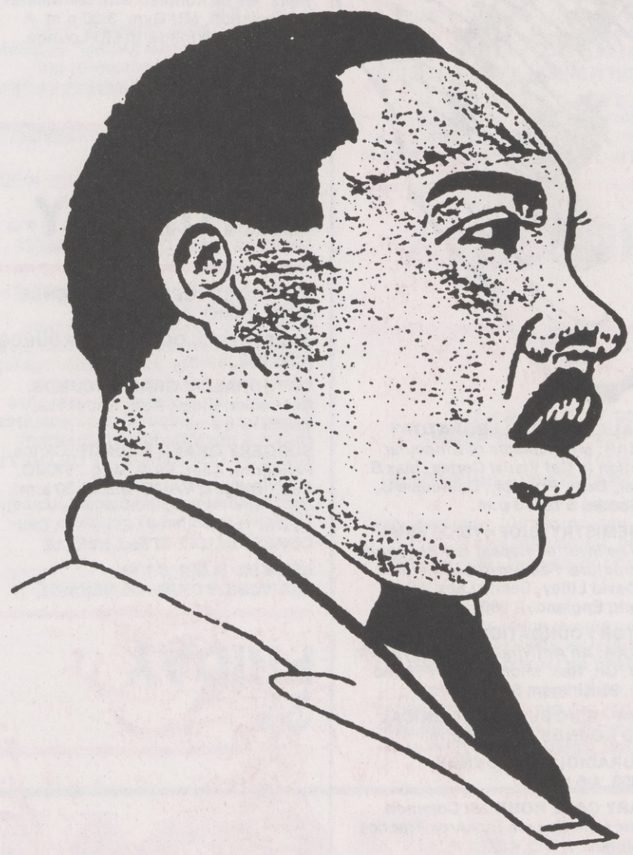
DEADLINE

Deadline for the next issue of *Today & Tomorrow*, which will cover the period April 4-17, will be **Tuesday, March 24, 11 a.m.** Please send your copy to Allen Balderson, News & Public Information Services, 1475-4th Ave., extension 1541 or 2557.



The annual Martin Luther King Day program will be held Friday, April 3, in the Millberry Union gymnasium, noon to 1 p.m. The program includes guest speaker Khalil Faheem, public affairs director for KDIA Radio, soloist Henrietta Davis, and an excerpt from "I Have a Dream," by Bay Area actress Charlie Smith.

Faheem, a veteran activist in the civil rights movement of the sixties, is the convenor of the Annual Bay Area Black Leadership Conference, and hosts "Aware," KDIA's community issues program.

Martin Luther King Day commemorates the founding of the UCSF Black Caucus in April, 1968, just after King was assassinated. The entire campus is invited to attend this free program, dedicated to the families of the recently slain children in Atlanta.

Nobel Laureate D. Carleton Gajdusek will present a Joint Neurology/Biochemistry and Biophysics Seminar on Tuesday, March 31 in Cole Hall at 4 p.m. His topic will be "Unconventional Slow Viruses – Kuru Crutzfeldt – Jakob Disease."

Gajdusek is chief of the Central Nervous System Studies Laboratory, National Institute of Neurological and Communicative Disorders and Stroke, NIH. He won the Nobel Prize for Physiology and Medicine in 1976 for his work in Kuru, the first chronic degenerative disease of man shown to be a slow virus infection always leading to death.

Noon-1 p.m. Free.

NEWS BRIEFS

A full 10-year accreditation of UCSF by the Western Association of Schools and Colleges has been reaffirmed following an evaluation team visit in October and the full commission acceptance of the report in February.

The most impressive observation made by the Association was of the campus Academic Planning Board's outstanding performance in several important areas encompassing a broad spectrum of planning activities for the campus. It also was observed that the formation of the Board of Overseers holds promise for enhancing the campus's self-image and interaction with the city and state. In addition, it was noted that UCSF has made considerable progress in the improvement of its relationship with local neighbors.

Areas of concern cited were the severe space limitations on campus and some administrative-organizational issues attendant to continuing development of the graduate academic programs. The next full accreditation visit by the Association is scheduled for the fall of 1985.

Nominations are being accepted for a 1982 Research Fellows Program on "Women and Their Work: Intersections of the Marketplace and the Household." Sponsored by the Center for the Study, Education and Advancement of Women, UC-Berkeley, the program will support visiting and graduate fellows in original research on the dual roles of women in paid and unpaid work.

To be eligible for a visiting fellowship, individuals must have a doctoral degree or equivalent independent research experience and be able to be in residence on the Berkeley campus for a three or six month term. To be eligible for a graduate fellowship, individuals must be doctoral candidates completing a dissertation and accessible to the Berkeley campus. Application deadline is Wednesday, April 1.

For application material and further information contact Gleoria Bradley-Sapp, Research Program Coordinator, Center for the Study, Education and Advancement of Women, Building T-9, Room 112, UC-Berkeley, 94720, or call 8-582-4786.

The All-University Charter Day will be held on the Berkeley campus on Thursday, April 9. A procession will start at 2 p.m. followed by exercises in Hearst Greek Theatre at 2:30. Principal speaker will be Ira Michael Heyman, Chancellor of UC-Berkeley, who will be inaugurated at this time. Preliminary speakers will include Governor Edmund G. Brown, Jr., President Donald Kennedy of Stanford University and Joan Didion, UC-Berkeley's Alumna of the Year. Chancellor Francis A. Sooy will speak. UC President David Saxon will preside. For ticket information contact Diane Dillon, x2888.

The California Space Institute, a recently formed UC Systemwide research unit, now is accepting proposals for small independent research projects in the following main areas of space research: climate, with emphasis on satellite observations; remote sensing and image processing; practical utilization of the space environment and of lunar and asteroidal materials in space; and basic research in astrophysics and space science.

Proposals should be five pages of text or less and contain the following: quality of proposed research, relation to areas of interst, significance to California, involvement of graduate students and postdoctoral fellows, and availability of matching funds or the potential for development into a larger project funded elsewhere. Any investigator authorized to submit proposals is eligible.

For further informaiton contact David Wirth, California Space Institute, A-030, UC-San Diego, La Jolla, CA 92093, or call 714-452-4772.

Dean Julius R. Krevans of the School of Medicine will appear on KTEH-TV, Channel 54, in San Jose, on their new science series, "Tomorrow/Today." The combined accreditation licensure survey of Hospitals and Clinics took place at UCSF during the early part of February. The campus will not receive confirmation of accreditation for another four to five months. Comments from the survey team indicated, however, that our hospitals have resolved most of the deficiencies and implemented the recommendations of the 1978 survey team. The survey is coordinated by the Joint Commission on Accreditation of Hospitals (JCAH), the California Medical Association, and the California State Department of Health.

The deadline for receiving Commitee on Research grant applications is Friday, April 3 at 5 p.m.

All Academic Senate members, non-Senate faculty members and those with pending appointments are eligible to apply for funding in all subject areas. Priority is given to new faculty who are establishing research programs and to other faculty who are in need of seed money for development of new areas of research.

For revised policies and procedures and further information visit the Academic Senate Office, S 101, or call x1307.
